Dear Hiring Team,

At Brightcove I recruited 15+ ISV, agency and reseller partners into a deliberately curated ecosystem, and that channel grew to source **35% of regional pipeline** while I grew the region from **~\$4M to ~\$11.5M ARR** as Vice President. Your posting asks for partnerships tied to lead generation, seller acquisition and pipeline contribution rather than to a portfolio count, so that is the number I want to lead with.

The partnership I am proudest of started colder than that. As commercial lead for a medical IoT company with no European channel, I went after Roche Diagnostics with nothing but a thesis, built the internal case, and negotiated an **exclusive global reseller agreement through the Roche channel**: 7 figures on a three-year minimum, signed with their headquarters in Switzerland. The revenue came after signature. It produced multiple NHS sales, and then a ten-year contract with OLVG in the Netherlands, out of a counterparty roughly a thousand times the size of the company I was representing.

I have also built the team this seat needs. At Brightcove that meant 20+ people across Singapore, Mumbai and New Delhi, managing managers, collaborating with US headquarters and executing in local markets, with turnover under 10% and 80% of account executive promotions grown internally.

One thing I should be straight about: my background is SaaS rather than payments, and I have not sold in-store. What I have done, four times over, is open a market from nothing and make partners the reason it grew.

The region here is the part that made me apply. The United Kingdom, Ireland, France and Spain is a territory I already live and work in. I am based in Valencia, hold UK citizenship, and have spent 18 years building commercial relationships across borders.

I would like to talk about how you are scoping the region and the team.

Best regards,
Ben Morrell
