Hello Circle team,

Thank you for the opportunity to put myself forward for Director, Partner Manager, Enterprise, EMEA. I know a number of people at Circle, which is part of why this one caught my eye.

Your posting says the seat starts at signature. That is the part of a partnership I have spent most of my career on.

Firstly - Roche. For a small IoT company I signed Roche Diagnostics, an $80B regulated business, as a channel partner, then expanded it into an exclusive global reseller agreement (seven figures, three-year minimum).

It stalled in Roche's Legal and Compliance review. I kept their commercial sponsors in the room and made sure every question came back fast and complete, whilst holding our side firm on exclusivity and the minimum. It went live and produced NHS sales and a 10-year contract with OLVG in the Netherlands.

At Brightcove, as VP Asia, I grew the region from **~$4M to ~$11.5M ARR**. Most of that came from inside existing accounts: average account value went from **$40K to $250K+ ACV** as customers took on more teams, products and markets.

In terms of building the model - at Livepeer there was no commercial process. I put in the forecasting, contracting cadence and CRM as the one source of truth, and signed Aptos ($500K) along the way.

Your JD asks for AI fluency in almost every line. I build that tooling myself: LLM applications on the Claude API, a remote MCP server for shared business context, and the automation behind my own reporting.

To be clear - treasury, cross-border payments and MiCA are not my background. I think the partner lifecycle work is the harder part to learn, and the regulatory side is something I would get to grips with quickly with your Legal and Compliance teams.

I work fully remote from Valencia, inside the EU and on UK time ±1h, and the ~30% travel works for me.

Happy to hop on a call to talk through any of the above. CV attached.

Thanks for your time and your consideration,
Ben Morrell
